

## Registration Fees

### About the name badges:

---

#### Name badge with paid association fees

This is what the name badge looks like if the Congress attendee is registered and has paid the fees for an association meeting. Ex: The Canadian Historical Association

If your association is not listed on the badge, your association is not receiving any registration fees from this person.

#### Name badge without paid association fees

This is what the name badge looks like if the attendee is only registered for Congress in general, but not for any association meetings. In this case, your association is not receiving any registration fees from this person.

### About the fees:

---

The Congress fee is **mandatory** for every attendee, including speakers, presenters, panelists and those chairing or attending a session.

The association meeting fees are **mandatory** for attendees participating in associations meetings, including speakers, presenters, panelists and those chairing or attending a session.

### About the registration list:

---

To see who is registered for your association meeting, click on "Reg. attendees (association fees)" in the Online Request System. If a person is not on this list, this means that they have not paid the association fee and that they are not registered to attend your association's meeting.
